

MAXXSONICS, LLC MINIMUM ADVERTISED PRICE POLICY

Maxxsonics, LLC (Herein referred to as “Maxxsonics”) implements the following Minimum Advertised Price (“MAP”) Policy. Maxxsonics is the owner all Maxxsonics brands, including, but not limited to MB Quart and all trademarks, patents and associated intellectual property. Maxxsonic’s products (“Products”), as designated in Appendix A, are protected by this Policy.

Dealers and Resellers are defined as any individual or business entity, with a business location, physical or virtual, in which products are sold to an end consumer. This includes resellers who source products directly from Maxxsonics, authorized wholesale distribution partners and any other source that sells Maxxsonics Products. End consumers are defined as any individual or party who buys and uses a product or service.

Minimum Advertised Price (MAP) policy represent a unilateral determination of value, as defined by Maxxsonics. This MAP policy does not restrict a Dealer’s right to establish an independent and advertised resale price. The MAP policy has been established by Maxxsonics and has been unilaterally implemented. Maxxsonics will not, nor will it accept statement by a dealer or reseller that this policy will be followed and adhered to. Maxxsonics reserves the right to update MAP pricing (see Appendix A) on any products, from time to time, at its discretion, with or without notice. Maxxsonics may also add additional products covered by this policy, if so determined.

The MAP price for Products included in this policy represents the lowest price a Dealer or Reseller may advertise the Product(s) for sale. This includes, but is not limited to advertising on email, social media, blogs, catalogs, direct mail, in-store displays, websites, in print or any other electronic media or online marketplaces. Online Marketplaces are defined as an e-commerce site that brings sellers and buyers together in one place.

It is within Maxxsonic’s sole discretion, without liability, to determine any action in response to Dealers and Resellers who violate this policy. The following are examples of a violation of this policy. The below is not a comprehensive list and additional examples may be added at any time with or without notification.

- Advertising the Product for a total cost below the listed price on Appendix A of this MAP policy.
- Advertising pricing below the MAP with a shipping fee to meet the listed MAP price in the policy.
- Advertising the combination of a MAP-covered product with an additional product for a price lower than the combined price of the two products when purchased separately.
- Request the customer “add to cart,” language where a lower price than the MAP is provided when the customer “clicks through.”
- Issuance of any discounts, including coupons, rebates and/or gift cards of any form on products covered by this Policy.

MBQUARTI®

CRUNCH®

AUTOTEK®

The following are consequences for violating this, Policy. This list may be amended at any time with or without explicit notification. Please note, it is at the sole discretion of the Maxxsonics MAP Steering Committee to determine the consequences and actions taken for violating this, Policy.

- Written letter notifying the Dealer or Reseller of the product(s) in violation of this policy with a 3-day window to correct the product(s) in violation.
- Direct authorized wholesale distribution partners, Dealers and Resellers future orders of all models violated will not be shipped for a period of 30 days.
- Direct authorized wholesale distribution partners, Dealers and Resellers future orders of all models violated will not be shipped for a period of an additional 60 days.
- Reseller being placed on a Do Not Sell List with Maxxsonics and Maxxsonics' distribution partners.
- Maxxsonics reserves the right to revise any program or terms discounts. Maxxsonics may also terminate all resale agreements with the reseller and cancel all current orders.

This Policy has been unilaterally adopted by Maxxsonics and we do not solicit, nor will it accept assurances from a reseller regarding this Policy. Nothing contained in this Policy constitutes an agreement of the minimum or maximum pricing at which the dealer shall resell the Products. Maxxsonics will not discuss conditions of acceptance related to this Policy, nor will we modify, alter, or change this Policy for any dealer or reseller.

Maxxsonics may amend or discontinue use of the Minimum Advertising Policy at any point, with or without notice. Maxxsonics retains the right to change prices at any time with or without notification.

All communication regarding the Maxxsonics Minimum Advertising Policy may be directed to:
